POD LIFE

Welcome to **The Original Pod™** - the unrivalled best in intermediate accommodation.

Since we created the **Pod** in 2004 our iconic design concept has spread its wings all around the globe and now, led by our innovative design team, we offer a wide range of Pods that serve many sectors including Glamping and Boutique Hospitality.

Our expertise in this field and ability to adapt to our client's needs has enabled us to supply to some of the country's most highly regarded organisations in some really magnificent locations.

As you might expect, over the years our Pods have benefitted from improved construction details and we install the best of domestic quality equipment. Every **Pod** is hand built by our team of craftsmen to a pleasingly high standard of workmanship – we do not compromise on any detail.

All of our models serve their purpose well and have proven ever popular with a whole range of accommodation providers and, most essentially, their customers. **The Pod** opens up new revenue streams like no other form of accommodation. Seasons are extended, wash-out weekends eliminated and under-utilised parts of a site can be brought to life with the addition of these elegant structures.

CAMPING PODS

CAMPING
PODS

CAMPING PODS

Starting production in 2007 with the **Standard Pod**, we soon had demand for a larger unit so the **Family Pod** was created, which provides 50% more floor area.

The **Family Pod** provides the best return on investment and is spacious enough for operators to add simple furnishings.

Another model is the **MegaPod Shell** which gives plenty of floor area but provides a well insulated and heated basic unit.

Both the **Baltic Bothy** and the **Mega Bothy** can be supplied either as shells or with fitted bed or bunk frames, whilst the popular **D-Type Pod** would also fit well with sites which have washroom facilities and are looking to offer less basic **Pod** accommodation.

National Trust, Gt. Langdale, Lake District

OUTDOOR ADVENTURE PODS

OUTDOOR ADVENTURE

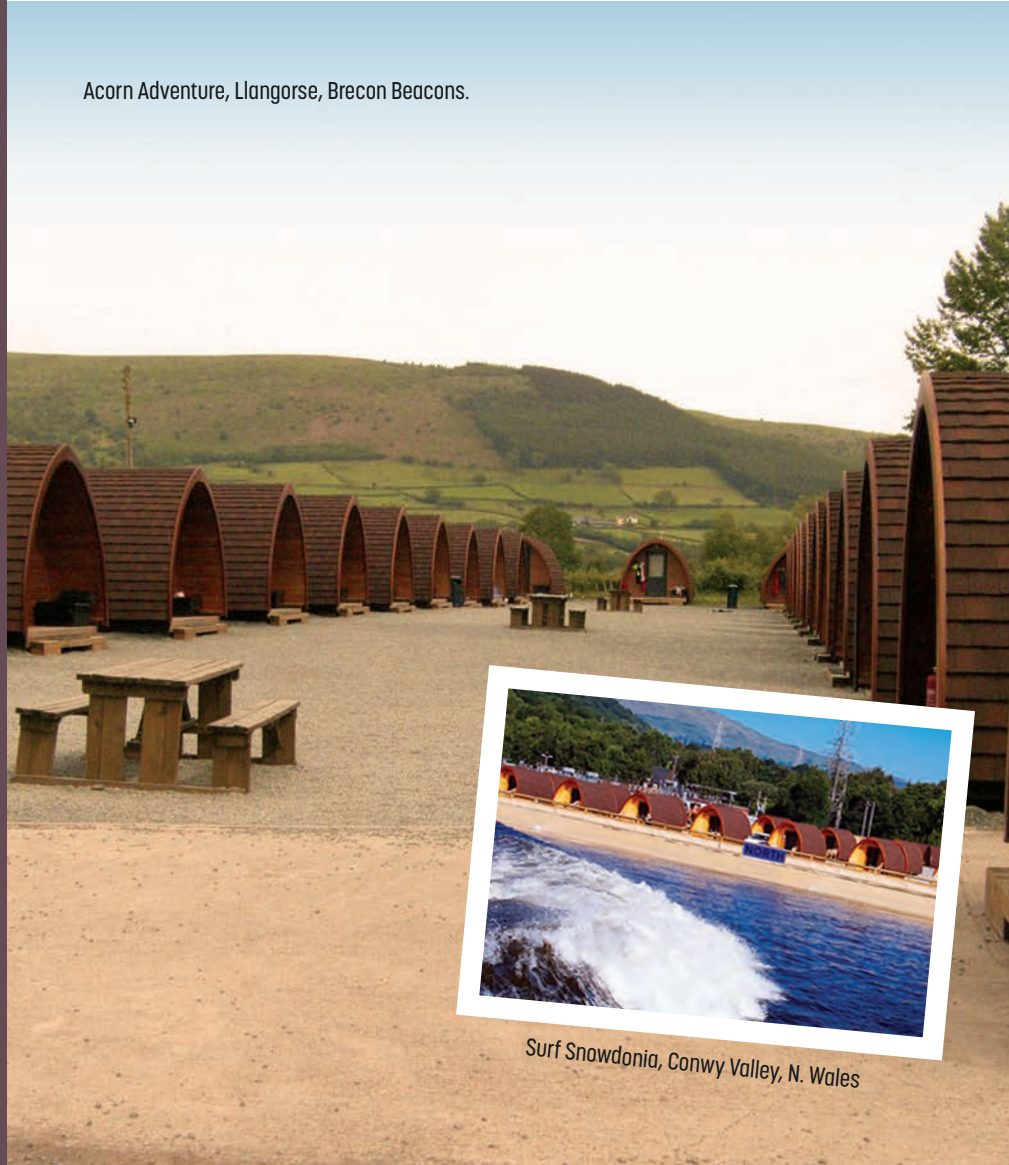

The Pod has become a popular choice both for activity centres catering for organised groups and specialised sporting venues.

Our **Mega 5 Berth** is a cost effective bunk room designed to take the rigours of constant use while our **D-Type Pod** is more versatile and better suited to centres where there is a broad mix of visitors. Both the **Baltic Bothy** and **Mega Bothy** can be supplied as 6 berth units.

We are well accustomed to providing multiple unit installations and can also provide supervisors accommodation - usually as a modified **MegaPod** or **Staffa Pod**.

Washroom facilities can be provided by our adaption of either the **Family Pod** or **MegaPod** if the installation is sited away from the main site facilities.

GLAMPING PODS

GLAMPING
PODS

GLAMPING PODS

We introduced the **MegaPod** in 2010 when the concept of glamping emerged into popular culture. These units have been supplied to a wide range of accommodation providers from large holiday parks through to customers who just needed an extra bedroom. This model is particularly popular in realising farm diversification initiatives.

The **MegaPod** provides self-contained accommodation with either a washroom, as in the **MegaPod-WR** or the **MegaPod-S** where we upgrade to provide a wet room with a shower.

Our most recent and largest model is the **K2** which includes a washroom with a generous shower cubicle and increased hot water storage capacity.

We can also supply an adapted **Mega Bothy** suited to semi-ambulant users.

Please contact us on **01539 442299** or by email at **admin@thepod.info** if you wish discuss how the suitability of these various models would fit with your proposed glamping development.

GLAMPING PODS

THE BIG PICTURE

- We use premium materials and refined construction throughout.
- We have international distribution, invest in sustained advertising and generate significant media coverage.
- There were over 100,000 **Pod** stays last year
- There are 800+ Pods in the hire/rental market
- There are over 200 **Pod** sites in UK alone
- 100,000+ unique visitors to **www.thepod.info**
- Major travel and leisure organisations have invested in Pods
- Pods can be found all over the world. Our website supports international location mapping and a free directory for all official **Pod** sites.

Eskdale Pod Village, The Lake District

HOSPITALITY & BOUTIQUE PODS

HOSPITALITY PODS

HOSPITALITY & BOUTIQUE

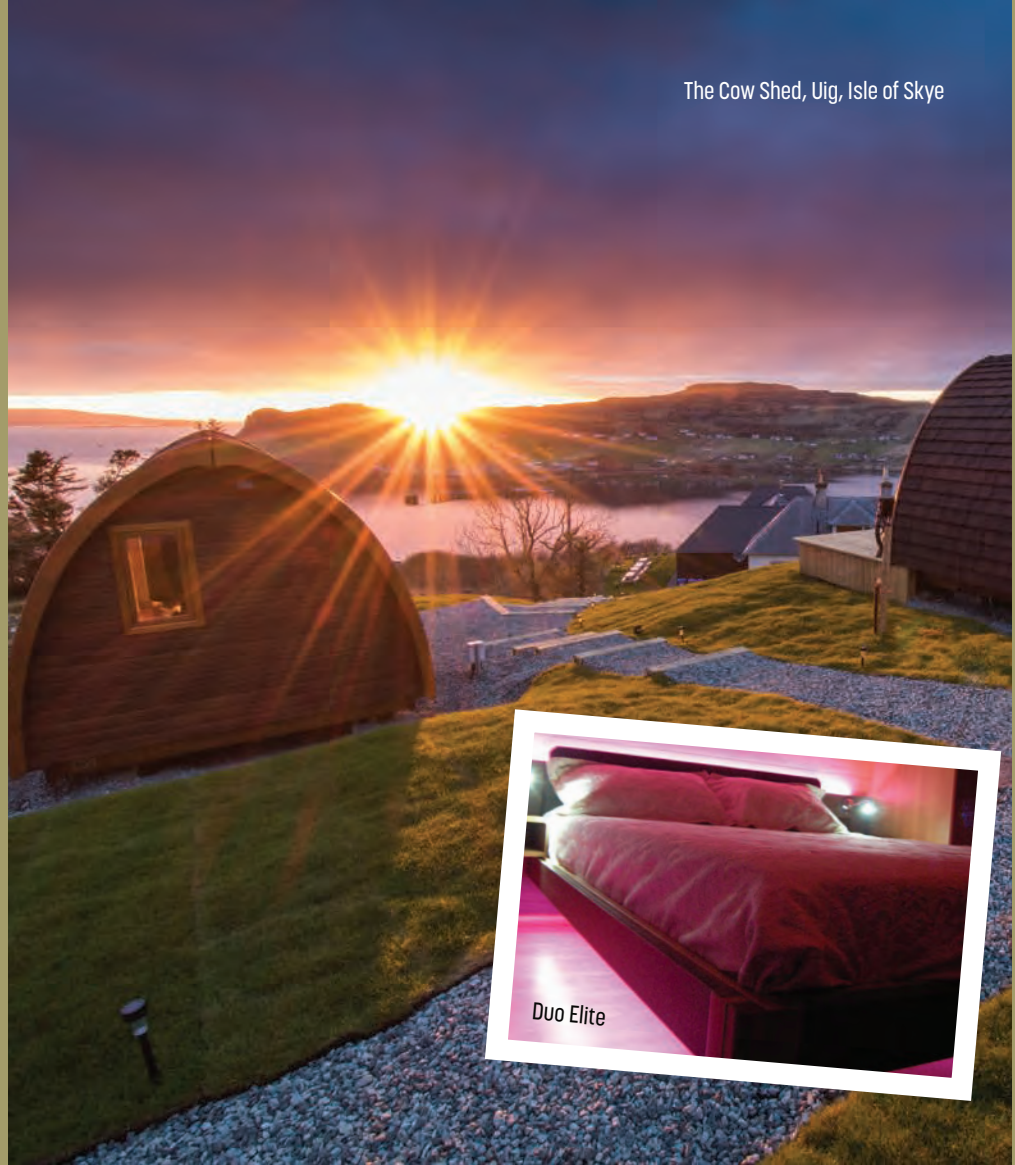

The current flagship room **Pod** is the **Duo Elite** which can provide either a twin or double bed arrangement, a luxury en-suite shower and can include integrated mood lighting and Bluetooth sound equipment.

We also have **MegaPod-SR** which has the wet room / shower but where the kitchen is replaced by a wardrobe, drinks station and store cabinet.

For semi-ambulant use we can supply an adapted **Mega Bothy** with full facilities, while establishments that offer Spa facilities could take advantage of our unique **Treatment Room**.

We also developed the **Staffa Pod** as a compact unit for hotel staff - essentially somewhere comfortable and quiet to retire to when the day is done with bed and en-suite facilities.

The Cow Shed, Uig, Isle of Skye

HOSPITALITY PODS

WEDDING BELLES

WEDDING BELLES

A memorable addition for that special day!

The increasing diversity of wedding venues is another area where the **Pod** can feature.

Quite often guests end the day in whatever local accommodation is available. In more remote or popular areas this may well mean that there are limitations are imposed on party size.

If the venue has space available, a **Pod Village** could be created to provide rooms for guests with one of our amazing **Bridal Suite** units in pride of place.

For the bridal suite we offer special versions of both our **Mega Bothy** and the **Duo Elite** with a side gable entrance. Our stylish interiors elegantly seal the perfect day in an (almost) straight from a movie setting!

STANDARD POD

Great for couples and families with younger children. The **Standard Pod** is where it all began - this warm, secure and affordable camping hut has been providing shelter for cyclists, walkers and campers since 2007.

Best teamed up with **Family Pod** to offer maximum booking flexibility.

External

2.56m (8ft 4in) x 3.94m (13ft)

Internal

2.42m (7ft 7in) x 2.7m (8ft 10in)

Head Room

2.1m (6ft 9in)

FAMILY POD

Our most popular camping pod model - the **Family Pod** is a more versatile space providing 50% more floor area than the **Standard Pod**.

The **Family Pod** also provides the best return on investment and is spacious enough for operators to add simple furnishings where it is desirable to enhance the customer experience.

External

2.83m (9ft 3in) x 4.77m (15.7ft)

Internal

2.66m (8ft 8in) x 3.52m (11ft 6in)

Head Room

2.3m (7ft 6in)

MEGA POD SHELL

If the **Family Pod** is still not big enough then the **MegaPod Shell** may be the answer for sites that cater for groups or family holidays. There is a good sized floor to spread out on for campers and even to run around on for kids. The unit is also pretty flexible for those who might choose to provide furnished accommodation without a washroom or kitchen.

External

3.14m (10ft 3in) x 5.09m (16ft 7in)

Internal

3m (9ft 8in) x 4.37m (14ft 4in)

Head Room

2.3m (7ft 6in)

BALTIC BOTHY

This **Pod** offers plenty of internal space set off by the graceful curves of the roof support ribs. The double end arrangement lends itself to various furnishing solutions and still with space to accommodate a central dining table. The porch module needs to be fixed and finished on site due to transport limitations. The **Baltic Bothy** is supplied with a high level of insulation as standard.

External & Internal

Dimensions vary according to application

Head Room

2.3m (7ft 6in)

MEGA BOTHY

The provision of the side gable and increased floor area provide for quite versatile, spacious and luxurious accommodation as well as a number of other applications. The **Mega Bothy** can be offered with semi-ambulant facilities and the layout works well as a spa treatment room, sensory room or home office. Please contact us on **01539 442299** to discuss your particular application.

External

5.7m (18ft 8in) x 3.47m (11ft 4in)

Internal

5.4m (17ft 8in) x 3.05m (10ft)

Head Room

2.4m (7ft 10in)

D-TYPE

The **D-Type Pod** provides flexible arrangement that suits a group attending activity centers rather than camping. The bunks have stowage space below and the raised area in the end can serve as a lounge or can sleep two more guests.

To ensure all year round usability we have incorporated underfloor heating, a high level of insulation and as an option Velux windows can be added.

External

2.83m (9ft 3in) x 4.77m (15.7ft)

Internal

2.66m (8ft 8in) x 3.52m (11ft 6in)

Head Room

2.3m (7ft 6in)

MEGA PODS

The **MegaPod** series brings lodge style luxury at a very attractive price.

Supplied furnished, all the fitting out is domestic quality which ensures the comfort and enjoyment of owners and guests with a functional mini kitchen arrangement with fridge, microwave and sink. The **MegaPod-WR** provides a WC and hand basin, while the **MegaPod-S** washroom is a compact but luxurious wet-room with shower. The **MegaPod-SR** is aimed at hospitality providers where the mini kitchen is replaced by a wardrobe and drinks station.

These relaxing, super space efficient layouts coupled with under laminate heating will ensure a most enjoyable stay at any time of the year.

External

3.14m (10ft 3in) x 5.4m (17ft 8in)

Internal

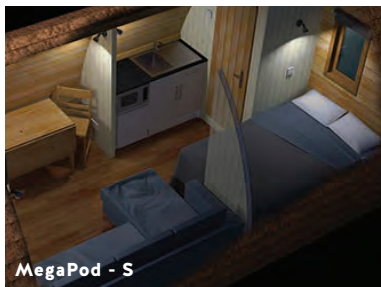

3m (9ft 8in) x 4.37m (14ft 4in)

Head Room

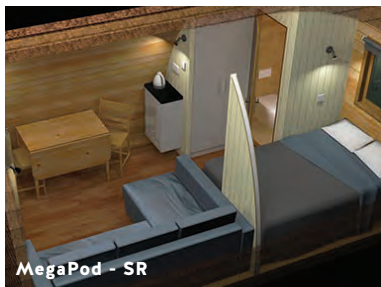

2.4m (7ft 10in)

MegaPod - WR

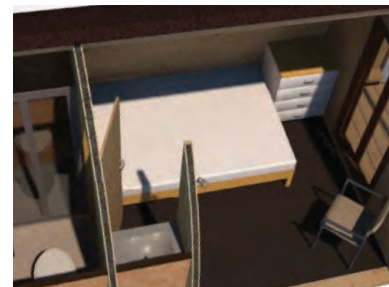

MegaPod - S

MegaPod - SR

STAFFA

Designed primarily for Hotel and B&B accommodation where dining facilities are on site. The **Staffa** is also a smart accommodation solution for staff at venues or on longer running projects. For an en-suite unit it has a small footprint and offers exceptional value for money. The unit is supplied furnished with either a twin bed or compact double arrangement.

External

2.83m (9ft 3in) x 4.77m (15ft 7in)

Internal

2.66m (8ft 8in) x 3.52m (11ft 6in)

Head Room

2.3m (7ft 6in)

K2

Our latest and largest **Pod** to date. The **K2** takes the **MegaPod-S** formula and expands into a larger shell where the bathroom provides a generous shower cubical.

The arrangement is still the 2 + 2 but the fixed bed frame will accommodate a larger mattress for that highly desirable hospitality feel. The **K2** is a great and affordable alternative to the lodge for private ownership leisure accommodation, while equally it makes for very attractive rental accommodation.

External

5.67m (18ft 6in) x 3.46m (11ft 4in)

Internal

4.77m (15ft 7in) x 3.32m (10ft 10in)

Head Room

2.55m (8ft 4in)

DUO ELITE

This is our top of the range unit for hospitality providers serving as a sumptuous room with en-suite facilities. Accommodation is based around a king size bed or a hook and zip twin bed arrangement. The **Duo Elite** has the airy comfort of underfloor heating while a long 'vanity' counter top provides for a built under drinks cooler and space for a large TV. Options include integrated Bluetooth Hi-Fi and impressive mood lighting. The shower room is finished to a luxurious standard with premium finishes and a ceramic tiled floor.

External

5.67m (18ft 6in) x 3.46m (11ft 4in)

Internal

4.77m (15ft 7in) x 3.32m (10ft 10in)

Head Room

2.55m (8ft 4in)
